### Hard Seat & Soft Seat/Tip

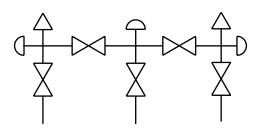

Flare Pattern™ option

#### Flow Schematic

# **5030/5130** SERIES

- Designed for use with differential pressure transmitters incorporating two isolation valves, two equalizing valves and a vent valve required in natural gas applications
- Flare Pattern™ valve configuration provides maximum clearance for fingers during operation
- Soft tip valves feature a patented Acetal non-rotating soft tip stem, and a back-up metal-to-metal seal (U.S. Patent 6,820,857)
- Available in block, single flange, or double flange connection for remote or direct installation
- 100% helium leak tested to 1 x 10<sup>-4</sup> ml/s for performance and reliability
- 5130 Series valves also feature a replaceable Acetal seat, and straight through porting for bidirectional, high capacity flow and easy roddable cleaning of the block valves
- Blow-out proof stem provides a secondary stem seal in the full open position
- FKM o-ring seal and PTFE back-up ring below the stem threads to protect from corrosion and galling; PTFE or Graphite packing optional
- One-piece bonnet with a metal-to-metal seal to the valve body below the bonnet threads
- Slotted spring pin to prevent accidental loosening
- Patented body-to-bonnet, metal-to-metal seal is designed to significantly increase the pressure range of the valve (U.S. Patent 7,758,014)

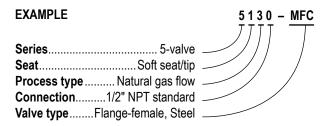

|                     | SPECIFICATIONS  |  |  |  |  |  |
|---------------------|---|--|--|--|--|--|
| Materials           | Zinc-Nickel plated Carbon Steel,<br>electropolished 316 Stainless Steel*  |  |  |  |  |  |
| Connection          | Flange-flange, 1/2" NPT-flange,<br>1/2" NPT-1/2" NPT  |  |  |  |  |  |
| Pressure ratings**  | Hard seat: 10,000 psi @ 200° F<br>Soft seat/tip: 6,000 psi @ 200 °F   |  |  |  |  |  |
| Orifice size        | 0.187"  |  |  |  |  |  |
| Flow coefficient    | Hard seat: $C_V$ 0.44<br>Soft seat/tip: $C_V$ 0.76  |  |  |  |  |  |
| Stem seal & type    | All 316 Stainless Steel stems with FKM o-ring and PTFE back-up ring below the threads.  |  |  |  |  |  |
| Additional features | Two static (test) ports, color coded vinyl bonnet and stem dust cap, patented soft seat/tip stem design on equalizing and vent valves |  |  |  |  |  |
| Options             | Panel mountings, o-ring materials, handles, packings, regulating stem and stem tips   |  |  |  |  |  |
| Weight              | Approximately 4.2 lb. without flange Approximately 6.0 lb. with flange  |  |  |  |  |  |

All 316SS products meet the requirements of NACE MR0175/ISO 15156-3

If a packing option is chosen, maximum pressure rating is 6,000 psi. Refer to the "Pressure vs. Temperature: Packing Style with Compatible Fluid" chart at the back of this catalog.

Please consult your local NOSHOK Distributor or NOSHOK, Inc. for availability and delivery information.

To meet all of your specific application requirements, the following **additional options** are available for these manifold valves. To order all or any of these options, simply add them to the part number as shown in the diagram below.

- NOTE 1: The example shown includes ALL possible additional options. Please include ONLY the options required for your application when building your part number. (EXAMPLE: 5130-MFC-P1)
- NOTE 2: When a packing option is selected, an o-ring option is NOT available.
- NOTE 3: The standard o-ring in all the NOSHOK manifold valves is FKM and T1 hard non-rotating (316SS standard) stem tip is the only option available for the Isolation valves on the 5130 Series. All other stem tip options are available for the equalize and vent valves.

Please consult your local NOSHOK Distributor or NOSHOK, Inc. for availability and delivery information.

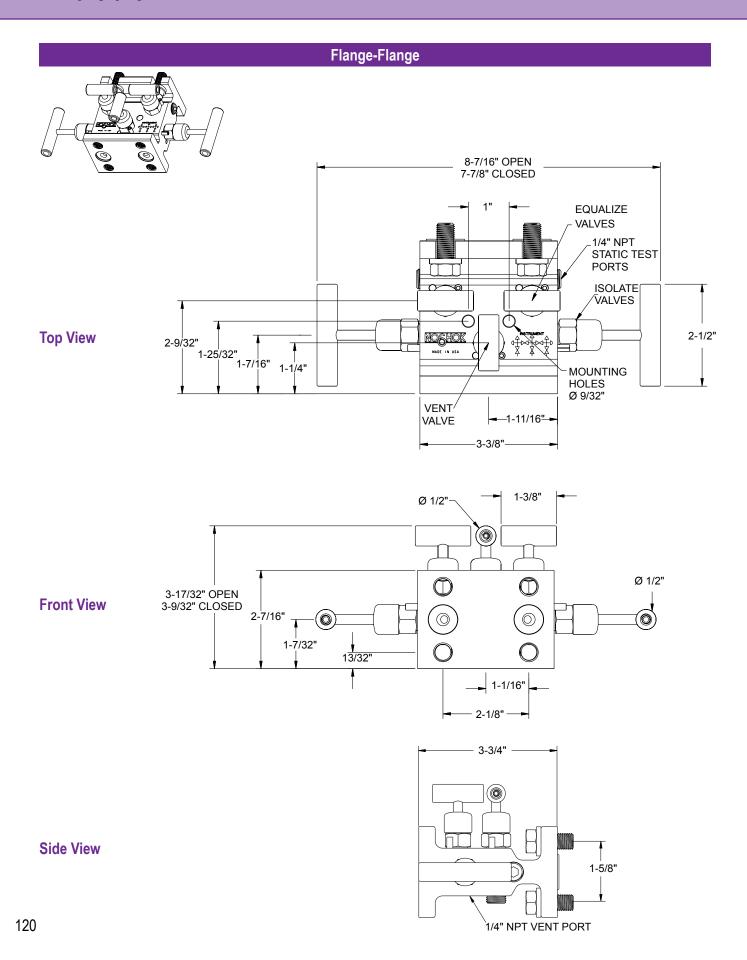

- \* Other o-ring materials available on request.
- \*\* For 5030 only.
- \*\*\* For 5130 only.

† If a packing option is chosen, maximum pressure rating is 6,000 psi. Refer to the Pressure vs. Temperature: Packing Style with Compatible Fluid chart at the back of this catalog.

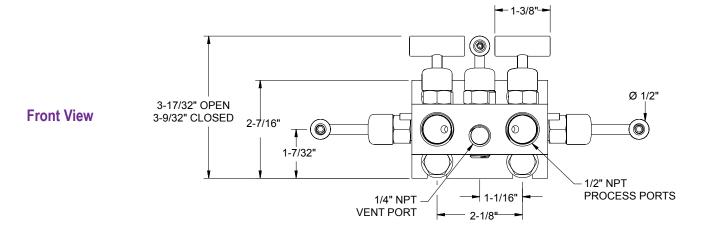

Please note that the standard o-ring in all the NOSHOK valves is FKM and the standard handles are isolation "T" handles (HL2) and equalizing & vent 1-3/8" mini "T" handles (HL7).

The handle material will always match the material of the valve, unless otherwise specified. For example, handles on the 5130-MFC will be Steel. When only the standard configuration is needed, no additional designations are necessary. Please consult the factory for special application requests.
